COUNSELOR'S CORNER

Welcome Back, CMS Families! The CMS Guidance team is excited to start the 2023-2024 school year! Counselors will continue to be assigned to a grade level again this year: Kyle Skinner (6th grade), Katie Manquero (7th grade), and Melissa Robison (8th grade). We look forward to building relationships with students and helping them navigate their time in middle school and beyond. Part of that process is assisting students with any questions they or their parents have regarding academic, social, or emotional well-being. If you have questions or concerns about your student's schedule, feel free to call the school office and leave a message with your counselor, or send an email. We are here to help provide support in any way that we can as we get ready to start a new school year together.

As we all know, middle school years come with many changes. Those changes must be navigated with teamwork and communication. We cannot emphasize enough the importance of these two concepts when working toward the goal of a student's academic, social, and emotional progress. This requires the combined effort of students, parents, teachers, counselors, principals, and other building staff. CMS is blessed to continue having two full core teams of teachers in all three grade levels; each with their own team leader. Our design for teaming is to make a school of almost 1,000 students feel smaller. Each team has approximately 170 students they monitor, manage, and mentor. Our core teams meet several times a week to collaborate and work together. Additionally, part of this team time is used to meet with parents. If you find yourself concerned about your student's grades, behavior, or social issues, please feel free to contact CMS and set up a team meeting. We are amazed at the changes we see in students' progress when we ALL work together to assist students with challenges they may face in middle school.

In reference to middle school challenges, we wanted to take a moment to encourage parents to continue monitoring their student's social media and technology usage. As you know, phones and access to social media are now considered the "norm" by many of our students. With this, we have seen a huge rise with inappropriate postings and pictures on social media. Often times what happens outside of school on platforms such as Instagram, Snapchat, and Tik Tok is shared at school and disrupts learning. Please continue to actively monitor, discuss, and guide your student through these challenging middle school years. Having trouble knowing where to start? Please check out the guidance tab on the CMS website. We've put together a document entitled "Social Media and Technology Recommendations."

We hope all of you have enjoyed your summer and are excited for all of the opportunities this 2023-2024 school year will bring! As always, please don't hesitate to contact your school counselor with any questions or concerns you have going into the school year. We look forward to working with our CMS families this year.

Carroll Middle School PTO Information

Welcome to the 2023-2024 school year! My name is Kathryn Myers I have the honor of serving as our PTO President. The PTO meets once a month, usually on a Monday evening, in the CMS Library. It's a great way to become more aware and involved with what's going on at school (especially since we know how willing middle schoolers are to share information) .

While attending onsite registration this year, don't forget to stop by the PTO table and the CMS Bookstore. Students can find various school supplies as well as school spirit gear, such as lanyards, in the CMS Bookstore adjacent to the cafeteria. Lastly, included with this newsletter is the **PTO Registration/Sponsor Your Student form**. **Sponsor Your Student is the PTO's largest fundraiser** of the year! We understand money may continue to be tight this year. There is nothing to sell. You decide how much you give to help support the PTO activities.

If you have questions, please do not hesitate to contact me.. Thank you as always for your support. We are looking forward to a great year!

Respectfully,

Kathryn Myers CMS PTO President

Northwest Allen County Schools Device Protection Plan 2023-2024

Northwest Allen County Schools' optional Device Protection Plan provides full coverage for the first accidental damage claim and offers assistance to families in managing expenses due to accidental damage.

What is covered?

- This Device Protection Plan covers the NACS laptop or Chromebook, adapter, and case.
- The plan will provide **full replacement cost coverage for one incident claim per school year**, per student covered, at no additional cost to the family.
- If a student device is accidentally damaged a second time during the covered school year, the plan will discount charges by 75% and the student will be charged 25% of the cost of the replacement part (approx. part costs listed below).

What is not covered?

- Damages deemed by administration to be intentional are not covered by this plan and the student will be charged the full cost of the repairs or device replacement. Intentional damage might include breakage and the removal of parts, including screws, keys, or rubber bumpers.
- Loss or theft of the device is not covered by this program. The student is responsible for the full replacement cost if the device is lost or stolen.
- **Students will be charged the full cost of replacement parts after the second incident claim during a covered school year.**

Program Enrollment:

- The cost of the program is an annual, non-refundable fee of \$25, per school-issued device.
- Coverage begins upon receipt of payment and this signed agreement. Coverage ends when the device is returned at the end of the school year or upon withdrawal. If the device remains with the student over summer break, coverage ends at the start of the first day of the new school year.
- To enroll in the program after September 1, the device must first be inspected by the school media assistant or the NACS Technology Department and any needed repairs must be made at full cost before coverage will go into effect.
- As this is an optional program, fees for students on a free or reduced lunch program are not discounted.

It is the student's responsibility to protect the device from damage, loss, or theft. All repairs must be handled only by the NACS Technology Department.

Repairs deemed by the NACS Technology Department to be due to device defects or issues that would normally be covered under a manufacturer's warranty will be made at no charge to the student, regardless of participation in this program and will not count against claim limits.

- Approximate cost for common parts and resulting charge to student with and without this plan:
