6th GRADE**SCIENCE***Mr. Corah /Mr. Windmiller*

The science classes in the 6th grade are now into their study of our solar system. We start the month looking at why the moon causes eclipses and our ocean's tides. We are then going to move into our study of the rest of our solar system with a breakout game that will lead students across the Milky Way and require them to use their knowledge of science to save the day.

February will also include our first CPA of this unit. Details were handed out on January 27th and the projects are due in class on February 13th!

MATH*Mrs. Silveus/Mr.Koehlinger*

Academic classes will start the month by jumping ahead to Modules 11 and 12 Solving Equations and Inequalities. Very little mental math will be used to solve the equations!!! Showing the steps is important to prove deep understanding of the problem and is also required on the ILearn test to gain the most points on the grading rubric (partial credit). Accelerated classes will be working on Modules 17 and 18 Using Slope to solve problems. Also a review of all operations without a calculator and integrating fractions and decimals to ensure students have a solid understanding to solve these type of problems. Continue to study hard and commit yourself to getting work in on time.

SOCIAL STUDIES*Mr. Kochert/Mr. Lochmueller*

The students did a fantastic job on their Ancient Greece projects. It was awesome seeing their creativity on display. In February our focus will shift to Ancient Rome. We will have another project that goes along with this unit as well. Please help your kids plan their time on completing the projects. As a reminder, all of our handouts, notes, practice test, and plans for the week are all available on Canvas. Let us know if you have any questions or concerns.

THEME: (Hollywood Style) “Lights, Camera, Relay for a CURE”

Northwest Allen County Schools would like **to invite the entire community** to team up with us to fight cancer. Local businesses, Organizations, Families, and Individuals are all invited to help in any way they can. Last year we raised \$85,000. **This year our goal is \$90,000!**

There are many ways to help make a difference.

Come to the Relay and Have Fun!

For Children or Adults who don't have an email, please call 1-800-227-2345 to register over the phone.

Become a Sponsor:

Businesses have the opportunity to show support as an Event Sponsor. With 6 different levels of Sponsorship, your business can easily be a part of the event no matter how big or small your company is. Depending on your Commitment Level, your logo will be used in and around the track on the Day of the Event. **For more details, please refer to the "Sponsorship Commitment Form" included in this packet.**

Donate to Silent Auction:

In order to continue to raise funds to reach our goal during the Relay, there will be a Silent Auction near the track. Everyone will be having fun placing bids on array of baskets filled with beautiful items. You can help by donating those items for this very highly anticipated part of the event. You can donate your items at any of our NACS Schools. Please complete and return the Value Information along with your donation and THANK YOU!

Survivors and Caregivers:

Survivors and caregivers are the heart of every Relay For Life event. We have activities and events designed specifically for you so you can get to know others in the community.

Why participate as a survivor or caregiver?

Meet and network with other survivors and caregivers.

2. Serve as inspiration to those newly diagnosed.
3. Publicly recognize and thank caregivers for their support and commitment.

Publicly honor and applaud survivors.

Acknowledge that cancer is something faced together, not individually.

If you'd like to join the survivor and caregiver activities at the event but don't want to join a team, that's possible too . Once you've decided the event you'd like to participate in, just select the 'Walk the Survivor Lap option'.

WHAT IS RELAY FOR LIFE?

Relay is a team fundraising event where team members take turns walking around a track. Our event is 7 hours in length and each team is asked to have a member on the track at all times to signify that cancer never rests. Cancer patients don't stop because they're tired, and for one night, neither do we.

Each team sets up a themed campsite at the event and continues their fundraising efforts by selling foods, goods, games, and activities. This money will count towards their overall team fundraising goal.

Cancer knows no difference between age, sex, race and or religion. We are all affected by this disease in some manner. Together we can help find a cure!
